

Badge Maker 4400

BadgeMaker 4400 software enables card design, data management and card personalization on demand. Includes any graphics, logos, pictures and both static and dynamic text (name, number, expiry date etc). It supports 25 barcode types and magstripe encoding.

BadgeMaker 4400 is the perfect solution for cost-effective card personalization. Plastic cards are increasingly important function in today's society, not purely for identification, but also for registration in library, sports, facilities, access control and time & attendance issues.

Control the complete card issuing process from managing the data to designing the badge layouts.
